U.S. War Dept.

Created in 1789 by Act of Congress. In July
1947 the armed forces of the United States were
unified under a Secretary of Defense, head of the
National Military Establishment, with Cabinet
rank. The War Dept. became Dept. of the Army; it
and the Dept. of the Navy retained their indepen-
dence, and a new, co-equal Dept. of the Air Force
was created. Each Dept. is headed by a Secretary,
none of whom is in the Cabinet.

U.S. War food administration.

Pursuant to Executive order no. 9334, April 19, 1943, the Food production administration (except the Farm credit administration) the Food distribution administration, the Commodity credit corporation and the Extension service of the U.S. Dept. of agriculture were consolidated into the newly created War food administration, but retain their individual identity within the War food administration.
For publications issued by the War food administration as a whole, see U.S. War food administration. For publications issued by the individual agencies See next card

within the administration, was the name of the individual agency, i.e., U.S. Food distribution administration, etc.

On Jan. 21, 1944 the Food distribution administration and the Food production administration became the Office of distribution and the Office of production.

In Dec. 1944 the Office of distribution and the Office of production were abolished. Initially 3 new offices were created: Office of marketing services, Office of basic commodities and Office of supply. But finally only the first remained and see next card

U.S. Weather bureau.

Weather bureau came into being as a branch
of the Signal service of the War Department dur-
ing 1870, under provisions of a joint resolution
of Congress approved Feb. 9, 1870. On July 1,
1891 the meteorological duties of the Signal ser-
vice were transferred to the Department of agri-
culture, and the Weather bureau was organized.
This status continued until July 1940 when it
was transferred to the Dept. of commerce, in
accordance with the Federal government reorgani-
zation plan no. 4 effective June 30, 1940.

United States agricultural reports. 28v. 1847-70.

United States agricultural society.

In 1841 a convention was held in Washington to organize a national agricultural society to be supported by the fund which had been bequeathed by Hugh Smithson. The establishment of the Smithsonian Institution prevented the carrying out of this plan. In 1862 another convention was called to meet in Washington, at which convention the United States agricultural society was formed. The society was incorporated 1860.

The establishment of a Department of agriculture was urged at every annual meeting of the society until the desired result was obtained through the creation of that department by an act of Congress, May 15, 1862. The society was then relieved of many of its self-imposed duties, including the publication of a

periodical devoted to the interests of agriculture. The operations of the society were interrupted by the Civil war, though it was kept alive and annual meetings prescribed by the constitution were held.

There is record of but two publications of the society after 1862: Proceedings of the twenty-eighth annual meeting ... January 14, 1860 (cover-title, 11 p.); Proceedings of the 29th annual meeting ... January 12, 1861 (cover-title, 24 p.).

A meeting was scheduled for January 11, 1862, at the Department of agriculture, but no record of such meeting has been found, and the society apparently ceased to exist after 1861.

The hope is expressed that the treasury may be sufficiently replenished to permit the publication of these four unprinted numbers, as well as the three remaining numbers of v. 10, but apparently this plan was never carried out.

407
W65 United States exploring expedition, 1838-1842. United States exploring expedition ... 1844-74. (Card 2)
Published under act of Congress of Aug. 26, 1842, which provided: "That there shall be published ... an account of the discoveries made by the Exploring expedition under the command of Lieutenant Wilkes ... which account shall be ... published in a form similar to the voyage of the *Astrolabe*, lately published by the government of France."
By the same act, the edition was limited to 100 copies. Mr. Wilkes, however, secured copyright on his Narrative of the expedition, under which privilege he published several editions of that part of the reports. Later, also, the authors themselves, or publishers who might be willing to undertake it, were allowed to issue an additional 150 copies of the various reports, and under this arrangement, from 100 to 150 copies of most of the volumes were published in addition to the 100 copies provided for by the government. The official edition however was 100 copies only.

407
W65 United States exploring expedition, 1838-1842. United States exploring expedition ... 1844-74. (Card 3)
The publication was never completed. Five volumes are unpublished: v. 18, Botany, by Asa Gray; v. 19, Geographical distribution of animals and plants, by Charles Pickering; v. 21-22, Ichthyology, by Louis Agassiz; v. 24, Physics, by Charles Wilkes.
Vol. 19 was partly printed, and still remains in signatures. Part 1, Chronological observations on introduced animals and plants, was published in Boston, 1854, and the first half of part 2, Plants and animals in their wild state, Salem, Mass., 1876. The complete work has not been published.
Volumes of unfinished plates--some of them in proof before lettering--are found, without t.p. or other printed matter. The Library of Congress has two such volumes: one of 71 pl. (4 col.) from the atlases to Botany, and one of 32 col. pl., 28 of which belong to the unpublished v. 21-22, Ichthyology, and 4 to v. 12, Mollusca and shells.

2d set.
Atlas to v. 10 wanting.
Vol. 9, 10, and 11 are author's edition.
Vol. 9 has imprint: Boston, Charles C. Little & James Brown; London, John Murray, 1848.
Vol. 10 has same imprint as in the official edition, but is without "By authority of Congress" on half-title. It has four maps instead of one as in the edition published by the government, and was issued in cloth binding. Vol. 11 has same imprint and date as in the official edition, but contains only the introduction and plates from that volume. The tables are omitted.
Vol. 23, Hydrography, Atlas, v. 1 is dated 1850. The charts (55) are unnumbered, and the list of charts for the two volumes calls for 103 instead of 106 as in the copy dated 1858.
